1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On line 3 of page 1, “, now US Patent 6,761,791” has been inserted after “2002.”

2. The following is an examiner's statement of reasons for allowance: Laurash '021 is the closest art of record. Each of the independent claims has the limitation that the second label is **both** adhered to the strip of release material **and** is located adjacent the first label. Regarding figure 1 of Laurash, 106 is the first label, 104 is the second label, and 108 is the release strip. It simply isn't accurate to say that label 104 is adhered to the release material, as the label is clearly adhered to the label 106. Even if one were to rationalize that label 104 is adhered to release strip 108 *through* label 106, the second “adjacent” limitation is not met, as label 104 is on top of label 106.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

3. Claims 1-43 are allowed.
4. Any inquiry concerning the content of this communication from the examiner should be directed to Daniel Howell, whose telephone number is 571-272-4478.
